

Hospital bed MAINTENANCE LIFT

The LT600HBML Hospital bed maintenance lift is designed to fit all hospital beds including bariatric beds weighing up to 600 kg.

Powered by an electric hydraulic lift, its remote control enables easy access for hospital maintenance or engineering staff to carry out servicing or maintenance repairs safely.

To prevent hospital beds from sliding off, the hospital bed maintenance lift is supplied with a 20 mm safety lip around the sides, as well as a Width Extension Kit (pictured below) for an additional 600 mm.

The Width Extension Kit.

An example of Hospital Bed Maintenance Lift with the Width Extension Kit, adding 300 mm to each side.

Please note: This is an imported product.

Typical applications

Suitable for lifting hospital beds for servicing and maintenance.
